Schmittberger and Walsh Digging Deep Into Tenderloin Discipline After Several Raids.

Justice Goff suspended the Horowitz arson trial to-day and sent for District-Attorney Whitman. The District-Attorney was instructed by the Court to begin, through the special Grand Jury, an immediate investigation into the story that disorderly house-keepers have been paying money for police protection.

Justice Goff told the District-Attorney he thought this matter should be taken up without delay. Although the District-Attorney had arranged to postpone the graft investigation until after the first of the year, he fell into line with the suggestion of the Court.

"The Grand Jury," said Mr. Whitman, "will take up the matter on Monday. I have already issued six subpoenas for women to appear Monday morning, and I may have more women on hand at that time.

"Several cases are pending against disorderly house-keepers in Special Sessions, and these women have made overtures to furnish information in return for immunity. I am considering their cases.

"I do not believe the evidence women can give will warrant immediate **WILSON SAILS** leads which the Grand Jury may profitably follow.
